DETAILED ACTION

Applicant's election without traverse of Group II in the reply filed on April 27, 2006 is acknowledged. Claims 1-14 have been previously canceled. Claims 15-21 are directed to an invention non-elected without traverse and should be canceled prior to allowance. Claims 22-24 have been examined.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 22-24 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 8-10 of U.S. Patent No. 6,314,695 to Belleau. Although the conflicting claims are not identical, they are not patentably distinct from each other because applicant's claims 22-24 recite steps of cleaning a wall

surface, arranging a screed on the wall, spraying urethane foam onto the surface, vacuum planning the urethane foam, applying the polymer base coat, and applying a stucco finish, all steps which are stated in claims 8-10 of the parent patent.

Claim Objections

Claims 22 objected to because of the following informalities: "planning" should be spelled - - planing - - in claim 22, line 11 and claim 24, line 3. Appropriate correction is required.

Claim 22 recites the limitation "said first coat of polymer-based base coat" in lines 12-13 and line 16. There is insufficient antecedent basis for this limitation in the claim. This error could be corrected by amending "polymer-based" to - - polymer-enhanced - - as cited in claim 22, line 9.

Claim 23 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim. Claim 23 contains the same subject matter that has been added to lines 11-13 in amended claim 22.

Claim 24 recites the limitation "the proper thickness planning" in line 3. There is insufficient antecedent basis for this limitation in the claim. This error could be corrected by amending "the proper thickness planning" to - - proper thickness planing - -.

Allowable Subject Matter

Claim 22 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Claim 24 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Final

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
